Next level of unparalleled luxury living.

Chevron One is truly a landmark of firsts look forward to a new level of unparalleled luxury living.

In harmony with the architecture, large expanses of glazing delivered light-filled interiors with views of Surfers Paradise, the river, sand and ocean. Engineered timber floorboards throughout add warmth and texture, while spacious living areas flow seamlessly into generous balconies.

The interiors of Chevron One are designed for exceptional living, featuring beautiful finishes, light filled intuitive spaces and spectacular views. A Selection of lighter and darker interior colour schemes influence select details throughout the apartments.

The entertainer's kitchen, designed by the celebrated chef Shannon Bennett, features Miele appliances with exclusive features in the penthouse levels. Dressed in engineered stone with modern tapware, there is a sense of luxury in every detail. The classic and modern

schemes feature accents in tones of ivory and taupe, while dark Avant-Garde and Nouveau schemes feature charcoal tones offset by rich deep accents.

Immerse in an outdoor pool and spa surrounded
